

DENTON COUNTY CEMETERIES

A compilation of Denton County cemetery records
abstracted from the holdings of the Emily Fowler Central
Library, Genealogy Collection

Compiled

By

Mary Layne

PREFACE

This compilation of cemetery listings was done since the library's Denton Collection had publications that included multiple cemeteries included in a single volume but did not have an alphabetized index of names listed. Some of the listings for the cemeteries were done as far back as 1937 with others being done in the 1950's. When organized surveys were done for Denton County cemeteries in the mid-1970's, it is possible that headstones listed in this compilation were no longer readable or even still available.

Some of the sources used in this compilation have un-numbered pages as well as the listings of each cemetery not being in alphabetical order. If the number for the source has an asterisk (*) following it, that indicates that the record in that source has been hand corrected by an unknown person previously checking the source.
